

TOLLESON FAMILY ACTIVITY CENTER

Dallas, Texas

As a trusted partner, FSG provided ground-up electrical work and lighting packages for this Design/Assist project.

CHALLENGE

Rogers-O'Brien needed a professional electrical contractor they could trust to complete the electrical, lighting, audio/visual, and data installation.

SOLUTION

The Tolleson Family Activity Center for Highland Park United Methodist Church was a Design/Assist project that consisted of a 2-story underground parking garage, classrooms, meeting spaces, and a worship center featuring stunning architecture and high-end finishes throughout.

As a trusted partner, FSG provided ground-up electrical construction, lighting package expertise, audio/visual, and data installation.
