General Contractor
Xenergy

Electrical Contractor
FSG

Energy Savings
\$1,700,000

FORT HAMILTON

Brooklyn, New York

The United States Army called upon FSG to conduct a lighting upgrade in the fort, concentrating on energy efficiency.

CHALLENGE

Fort Hamilton, located in Brooklyn, NY, is an historic location with military use dating back to the American Revolution. The United States Army called upon FSG to conduct a lighting upgrade in the fort, concentrating on energy efficiency.

SOLUTION

Working for ESPC contract holder XENERGY, Inc., FSG supplied all engineering, design, materials, and installation services for this retrofit. The project scope covered 35 buildings in and around the fort, totaling some 600,000 square feet. Total energy demand reduction, including mechanical upgrades, was over 469 kW, and net energy savings added up to more than \$1,700,000.
