

FSG Announces COO of Construction

Jason Zipprian

"Working for FSG for the last twenty-seven years has been an extreme blessing for me and my family.

I am excited about all of the extraordinary work that is currently being done, and I will fully support our Team's continued construction growth across the Nation."

- Jason Zipprian

Facility Solutions Group is pleased to announce Jason Zipprian as the new Chief Operating Officer of Construction.

Jason joined FSG Corpus Christi in 1996 as an apprentice electrician. His drive to excel both personally and professionally, along with his dedication to FSG propelled him through the ranks. He earned his Journeyman's license and quickly assumed roles progressing from Service Dispatcher to Sales, to Service Manager, Project Management, Division Manager, and for the last 20 years, Executive Vice President of FSG Corpus Christi, Harlingen, and West Texas. Jason's story is a testament to the value of hard work and dedication.

Despite his impressive career advancement, Jason remains a humble, down-to-earth leader. While many would credit FSG Corpus' recent successes to Jason's leadership, he insists that the credit belongs not to him, but to the Corpus team - many of whom have been with FSG for over 20 years.

In addition to his professional achievements, Jason remained committed to his personal development as well. Although neither of his parents went to college, Jason desired to earn his degree. A year after starting at FSG, he enrolled in night classes and earned his Associate's degree from Del Mar College. He then transferred to Texas A&M Corpus Christi where he obtained both his Bachelor's and Master's degrees in Business Administration. While earning his MBA and advancing in his career, Jason married his wife Kelly and became a father to their five children. Jason attributes all of his success to Kelly and her unwavering support.

As Chief Operating Officer, Jason will take the reins of FSG's entire Construction business. His mission is to strengthen and expand our ongoing construction ventures and scout out fresh opportunities in both current and new markets. With his drive to excel, seasoned leadership skills, and keen eye for innovation, we're confident Jason will propel FSG's Construction division to new heights.

Join us as we congratulate Jason on his promotion to Chief Operating Officer of Construction!
