

FSG Announces COO of Service

Victor Williams

"It's an honor to step into a role that exists to serve the people, the purpose, and the promise of what we're building together."

With deep respect for the work being done all across FSG, I'm here to connect vision to execution, clear the path where needed, and quietly strengthen the systems that let great teams thrive. Impact doesn't always need to be loud to be powerful."

-Victor Williams

Victor's journey with FSG began nearly 18 years ago when he was hired in Arizona as a service electrician. He was a former traveling tradesman and young father seeking stability and purpose. At FSG, Victor found values he could believe in and a mission he could build a life around.

He quickly stood out not just for his skill, but for his leadership and heart. From running service calls and job closeouts, he rose to service manager, then branch manager. In 2015, he asked for the opportunity to start something new and was empowered to launch and lead FSG Florida. Within six months, the new division was profitable, and under Victor's guidance, it has grown steadily across the Southeast ever since.

In 2024, Victor was named Vice President and also elected to FSG's executive board. Victor's story at FSG is one of steady growth, servant leadership, and faith in the work we do together.

Now, as COO of Services, Victor will guide the strategic direction and operations of FSG's service businesses across the country. He'll focus on connecting strategy with daily execution, building consistent systems, and empowering service teams to thrive.

FSG is excited to support Victor in this next chapter and looks forward to the continued momentum his leadership will bring to our Services organization and the FSG Institution.

Please join us in congratulating Victor on this well-earned promotion!
