

Service Technician

Job Scope

A Service Technician is responsible for managing electrical installation, maintenance, and troubleshooting within commercial settings. They are responsible for managing small electrical projects on a fast timeline and for providing unparalleled customer service and support during emergency electrical service calls.

Responsibilities

- Troubleshoot and resolve problems in electrical circuits, systems, and equipment.
- Prepare sketches showing location of wiring and equipment, or follows diagrams or blueprints, ensuring that concealed wiring is installed before completion of future walls, ceilings, and flooring
- Plan layout and installation of electrical wiring, equipment, or fixtures, based on job specifications.
- Plan new or modified installations to minimize waste of materials, provide access for future maintenance, and avoid unsightly, hazardous, and unreliable wiring, consistent with specifications, safety codes and local electrical codes.
- Test electrical systems or continuity of circuits in electrical wiring, equipment, or fixtures, using testing devices, such as ohmmeters, voltmeters, or oscilloscopes, to ensure compatibility and safety of system.
- Work from ladders, scaffolds, or roofs to install, maintain, or repair electrical wiring, equipment, or fixtures. Perform physically demanding tasks while conveying knowledge of basic/specialized tools and equipment throughout service job/work order process.
- Must understand and conform to Government/Local regulations and ordinances as well as any/all required Safety Guidelines.

Requirements

- At least 3 – 5 years of lighting and electrical experience. Candidates with experience in lighting and electrical service preferred.
- Must be reliable. Hours currently Monday thru Friday with potential overtime & weekends.
- Must possess current state Journeyman or Apprentice license
- Must be able to pass a drug and background screen
